

PUBLIC PRIVATE PARTNERSHIP GUIDELINES
19 August 2002

Mrs PENFOLD (Flinders): Can the Treasurer advise the house when the guidelines for public and private partnerships will be available, and will those guidelines cover the urgent requirement for a desalination plant on Eyre Peninsula which is necessary owing to the very low recharge to the aquifers expected this winter?

The Hon. K.O. FOLEY (Deputy Premier): The answer to the first part of the question is 'soon', and the second part of the member's question was, as I understand it, covered by my colleague the Minister for Government Enterprises during estimates. If not, we will have a look at the question in more detail and provide a more considered answer.
